Hi! I'm
Rida Fatima Zubair

I am an aspiring AI and Front-End Developer with a passion for creating modern, responsive, and user-friendly web applications. Currently learning Artificial Intelligence while strengthening my skills in Python, HTML, CSS, JavaScript, and React. I enjoy building projects that solve real-world problems and continuously expanding my knowledge through hands-on learning.

- About Me -

An Elegant Approach to Code.

Hello! I'm **Rida Fatima Zubair**, a passionate Front-End Developer with a strong

I enjoy transforming ideas into interactive, visually appealing, and high-performing websites—committed to continuous learning, solving real-world problems, and creating digital experiences that are both functional and engaging.

✦

Frontend Craft

Pixel-perfect, responsive interfaces built with HTML, CSS, JavaScript and React.

✧

Agentic AI

Building intelligent AI solutions using Python and modern AI technologies.

✺

Design Sense

Creating elegant, modern, and user-friendly interfaces with clean aesthetics.

- JOURNEY

Education & Training

Academic

Intermediate(ICS)

Foundation in computer science, mathematics & statistics.

Training

WEB DEVELOPMENT

HTML5, CSS3, JavaScript & responsive design principles.

Training

REACT DEVELOPMENT

Modern component architecture, hooks and state management.

Training

AGENTIC AI

Designing autonomous, tool-using AI agents.

GitHub

AI • WORKFLOW

How It Works

The agent connects multiple tools and data sources to analyze movie information and answer your questions.

HTML • CSS • JAVASCRIPT

DIGITAL CLOCK

A clean and aesthetic digital clock built with HTML, CSS, JavaScript, and Bootstrap. It displays the current time and date dynamically, with a modern responsive design and an elegant background that makes the interface simple and visually appealing.

HTML CSS JavaScript BOOTSTRAP

JAVASCRIPT • TASK ANALYTICS

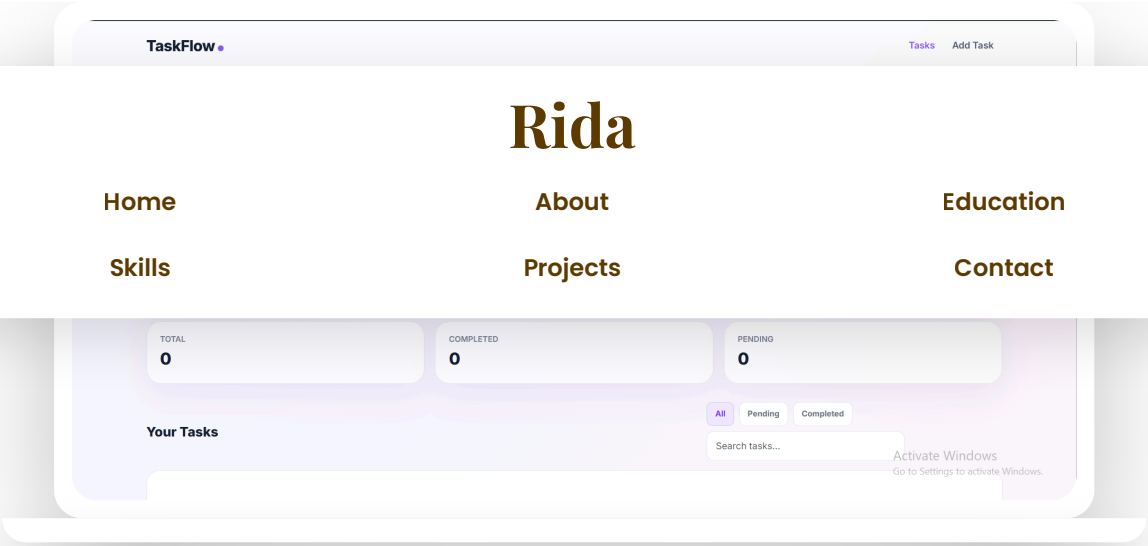

TODO LIST

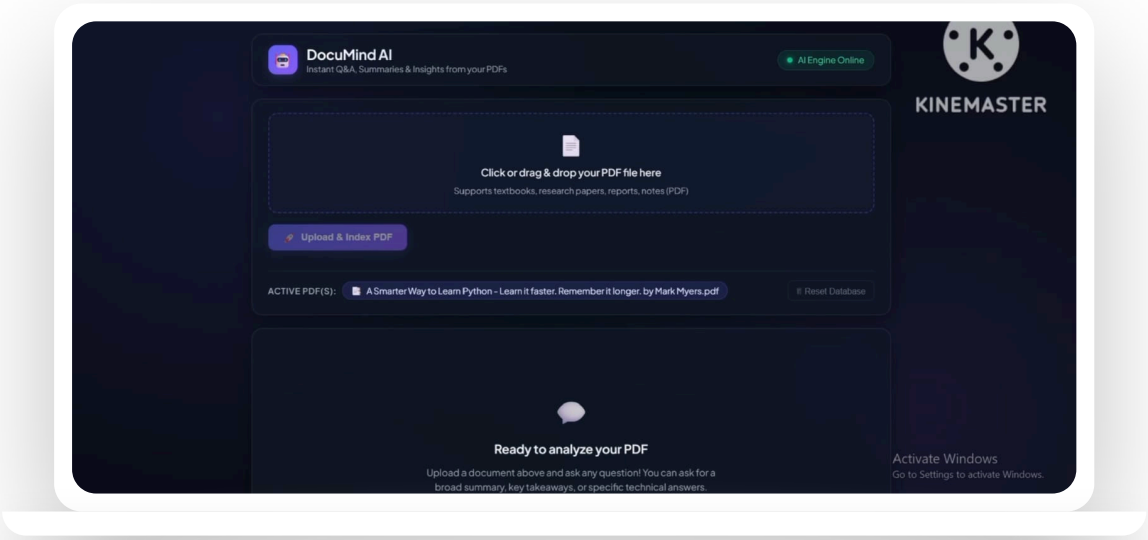

A modern and responsive Todo List application built with HTML, CSS, JavaScript, and LocalStorage. Users can add tasks with descriptions, manage their task list, and keep their tasks saved even after refreshing the page. The project focuses on practical JavaScript functionality, DOM manipulation, and browser storage.

PDF CHATBOT

A smart PDF Chatbot built with Python and LangChain that allows users to upload PDF documents and ask questions about their content. The application processes documents and provides accurate, context-aware answers, making it easier to find specific information, summarize content, and interact with documents using natural language.

PYTHON LANGCHAIN CHROMADB FASTAPI

— CAREER OBJECTIVE —

I am a passionate Front-End Developer with expertise in building responsive and user-centric web applications using modern web technologies.

With knowledge of React, Agentic AI, Python, and Data Scraping, I am dedicated to developing high-quality digital solutions, continuously enhancing my technical expertise, and contributing effectively to innovative projects. I am eager to collaborate with forward-thinking teams, embrace new challenges, and deliver impactful results while growing as a software developer.
